

What will it cost me?

There are several ways in which your claim can be funded, including a no win, no fee arrangement. By pursuing your claim on this basis you will not be asked to contribute towards any of the costs as the case progresses. We will be happy to discuss with you all of your funding options at the outset of the claim so as to ensure that the right option is selected for you and your circumstances.

As part of our service we will advise you whether or not your claim is likely to succeed.

Gilbert Stephens LLP is regulated by the Solicitors Regulation Authority (no: 536070).

Personal Injury

Personal Injury

You could be entitled to compensation if you have been involved in an accident in the last three years and, as a consequence, you suffered an injury for which you are able to show that a third party was responsible.

We deal with all aspects of Personal Injury, from the relatively minor, such as soft tissue injuries, to very serious injury.

We aim to secure the maximum amount of compensation for you by providing a professional and supportive service tailored to suit your individual needs and requirements.

What we cover

- Road Traffic Accidents - if you have been injured as a driver, passenger, cyclist, motorcyclist or pedestrian.
- Workplace Accidents - if you have been injured due to faulty equipment or machinery or an unsafe working environment, or as a result of insufficient training (for example: correct manual handling techniques).
- Public Liability - if you have been injured as a result of slipping, tripping or falling on floors, pavements, defective surfaces, steps, ramps etc in a public place.

What can I claim?

A Personal Injury claim consists of the following two main elements:-

- General Damages - compensation for your injuries and the pain and suffering caused to you; and
- Special Damages - out of pocket losses and expenses incurred. These can include (but are not limited to) loss of earnings, medical expenses, travel expenses, care and help around the home and items that may have been damaged in the accident.

How much will my claim be worth?

Damages are assessed by making comparisons with compensation awards in similar cases and adjusting them as required. We will be able to advise you what you might expect to receive if you win your claim once we have obtained a report from an independent medical expert.

How long will my claim take?

This will depend both on the response from the third party responsible and on other factors such as how quickly you recover from any continuing symptoms. We will keep you fully informed of the progress of your claim. Straightforward injuries should normally be resolved and settled within a twelve month period.

Do I need to have reported my injuries to a GP or hospital?

It can be beneficial to have the injuries you sustained recorded on your medical notes, as this will be used as evidence in your claim.

Will I have to go to Court?

The majority of cases are settled without any need for Court attendance.

Contact us

If you would like more information or wish to make an appointment to see one of our Personal Injury specialists, please refer to our contact details overleaf. We may be able to offer you a free half-hour initial assessment to discuss your requirements.
